IS MENU SOFTWARE RIGHT FOR YOUR FOODSERVICE OPERATION?

If these factors align with your organization's needs, implementing menu software could be a valuable addition to your toolkit.

	YES	NO
Do you run a cycle menu?	☐	☐
Are you in need of a solution that can provide a constant stream of creative recipe ideas for crafting diverse and enticing menus that resonate with both your residents and staff?	☐	☐
Is it important to have a user-friendly platform for customizing menus to meet resident preferences and specific dietary requirements?	☐	☐
Are you looking for tools to closely monitor and manage food costs, helping your operation stay within budget?	☐	☐
Would streamlining the ordering process, reducing errors, and saving time in procurement benefit your operation?	☐	☐
Do you need real-time nutritional analysis to meet regulatory standards and ensure they align with dietary guidelines and resident health needs?	☐	☐
Is effective allergen management and communication a top priority to ensure the safety and well-being of your residents?	☐	☐
Are you seeking a solution that offers production reporting capabilities to minimize overproduction, utilize forecasting, and reduce overall food waste?	☐	☐
Do you want the ability to create customized menus for individual residents based on their dietary preferences and requirements?	☐	☐
Is enhancing resident satisfaction by providing tailored, nutritious, and appealing menu choices a primary goal for your foodservice operation?	☐	☐
