# HIGHLIGHTS

## ASPARAGUS

Supplies remain extremely limited as production in both Mexico and Peru continues to fall short of demand. Sizing continues to skew heavily towards smaller spears; jumbo and extra-large sizes are especially tight. Expect significantly higher pricing, limited substitutions, and ongoing size restrictions into early 2027.

## BELL PEPPERS

Expect steady green bell markets over the next week, followed by upward pressure heading into October. Red bell prices will remain steady to slightly higher over the next two weeks.

## HURRICANE POLO

Mexican avocados and limes are the primary items that Markon is monitoring; chiles, cucumbers, squash, and tomatoes could see potential impacts later in the week, depending on how much rain falls from Hurricane Polo.

## PEARS

- The California pear season is expected to end by mid-October.
- New crop Washington Bartlett supplies are available.

## GREEN LEAF, ICEBERG, & ROMAINE

- The iceberg market continues to escalate.
- Green leaf and romaine prices are inching up as well.

## STRAWBERRIES

- Prices have declined due to weak demand, creating a softer market with plentiful availability.
- California growers are shifting from the Salinas/Watsonville region, where quality ranges from fair to average, to Oxnard for the fall season.

# ASK A MARKON CHEF

Markon has gathered a group of our member- and grower-affiliated chefs to answer your questions about produce.

CHEF  
VINCENT CASE  
MARKON MEMBER CHEF

# Q

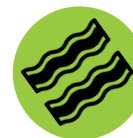

Fall and winter salads incorporate more grains and hearty vegetables. What are your favorite flavor combinations for this time of year?

# A

Markon offers several time-saving, delicious salad blends that work for the colder seasons. Less prep, more time to get creative with toppings! My favorite is RSS Harvest Crisp Blend. I like to pair it with ingredient partners like apples, pears, garlic, avocados, tomatoes, eggs, goat cheese, couscous, or chickpeas.

Mix it with mayonnaise or creamy dressing to create a brain-boosting coleslaw.

It makes a quick, easy side dish when sautéed with garlic and a squeeze of lemon.

# TIPS FOR SERVING MFC BELL PEPPERS

- 1.** Stuff green bell pepper halves with grain- and pasta-based salads for quick and easy vegetarian mains.
- 2.** Fire-roast red bell peppers and serve on premium sandwiches, tacos, and burgers, or chop into salsa.
- 3.** Add raw bell pepper slices to green salads, charcuterie platters, hummus plates, and wellness rice bowls.

# MENU FEATURE

Every chef needs a few solid recipes in his or her repertoire. That's why Markon has put together a catalog of fresh produce-based recipes that cover it all: day and menu parts, the range of seasons, a variety of cuisines, and a diverse list of ingredients.
